The background of the page is a collage of black and white photographs. The top half shows a football game in progress, with players in white jerseys and dark helmets, and a referee in a striped shirt. The bottom half shows a large crowd of students sitting in bleachers, looking towards the camera. A white rectangular box is superimposed over the center of the page, containing the word "ACADEMICS" in a bold, serif font.

ACADEMICS

Religion of Today — More Meaningful To Students

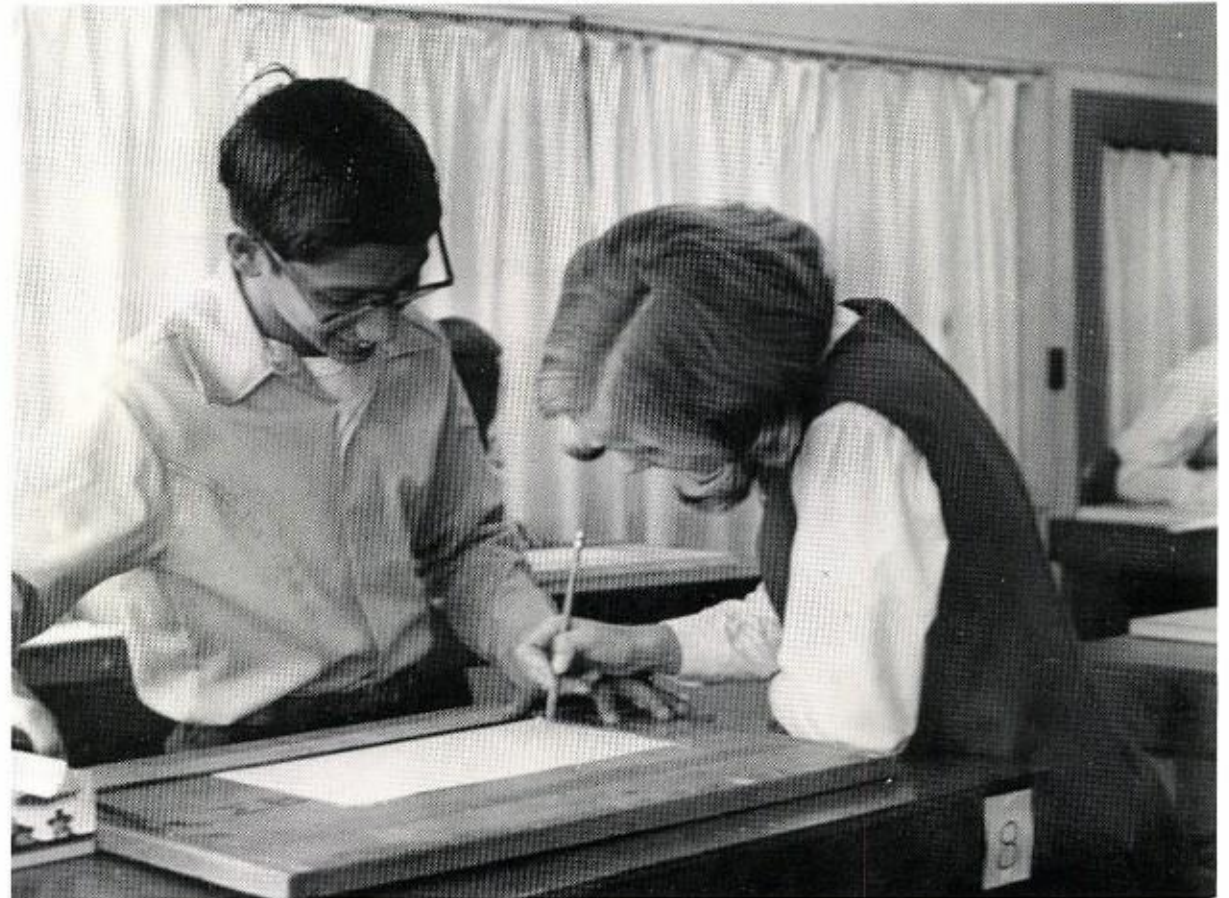

The peace and brotherhood of today may make us feel deeply the reality that peace and joy is not everywhere. But seeing the problems of men is one step toward solving them. This year the Religion classes and courses have been geared to the young generation with the concept of Ecumenism. No longer has Religion been affiliated with the "established church" but as a symbol of closer Christian-secular world association such as that of the folk-guitar mass. Scholars such as Barnabus Ahern, C.P. and Bernard Cocke, S.J. voices have echoed to students through tapes. Advanced religion classes have studied sex education, marriage, dating and family formation. Sophomores have studied Christian values and practices, while the Freshman initiated the study of Salvation History.

Techniques Stressed in Art Instruction

Art classes this year were the first at Pacelli to be held everyday and credited. Besides drawing and painting, the students made various art projects throughout the year. In addition, the course included the learning of several different art techniques. Mechanical drawing was offered to some geometry students this year also.

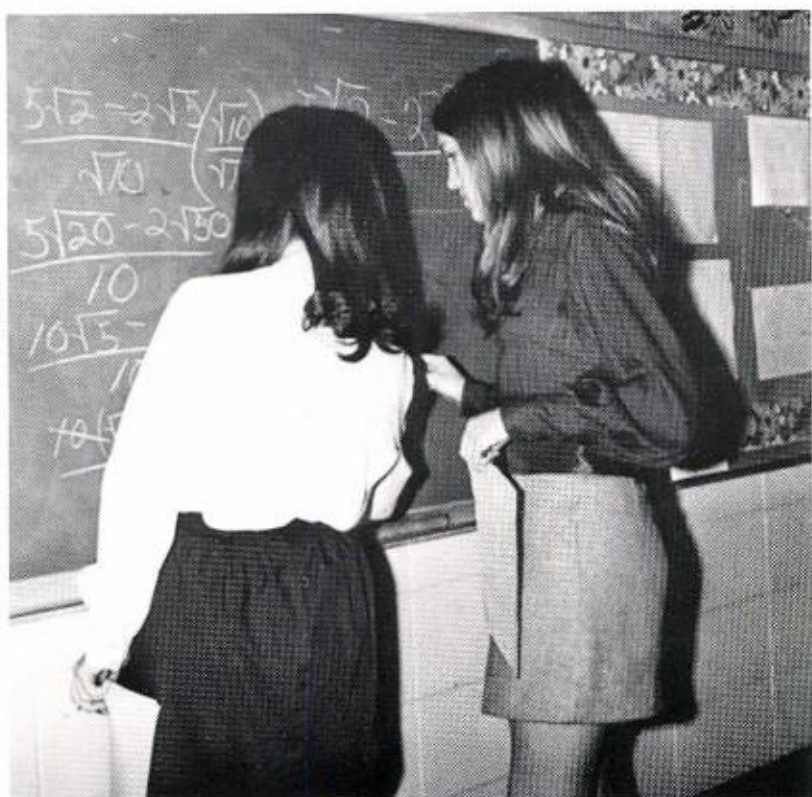

The new modular schedules enabled the science classes to have longer class periods this year. As a result, chemistry lab periods were held regularly once a week. Biology and Physical Science students also benefited from lab periods though not quite as often. Science teaching techniques employed this year were films, the overhead projector and transparencies, and experiments.

Experiments Give Insight

Classes Specialize in New Math

Pacelli math department has kept up to date with all the techniques of the so recently acclaimed 'New Math'. Teachers realize the growing importance of mathematical theories to students whether college bound or not. Students at Pacelli receive an excellent background in math through such courses as Algebra I and II, Geometry, Advanced Math, and Solid Geometry.

Understanding of World is Increased Through “Studies”

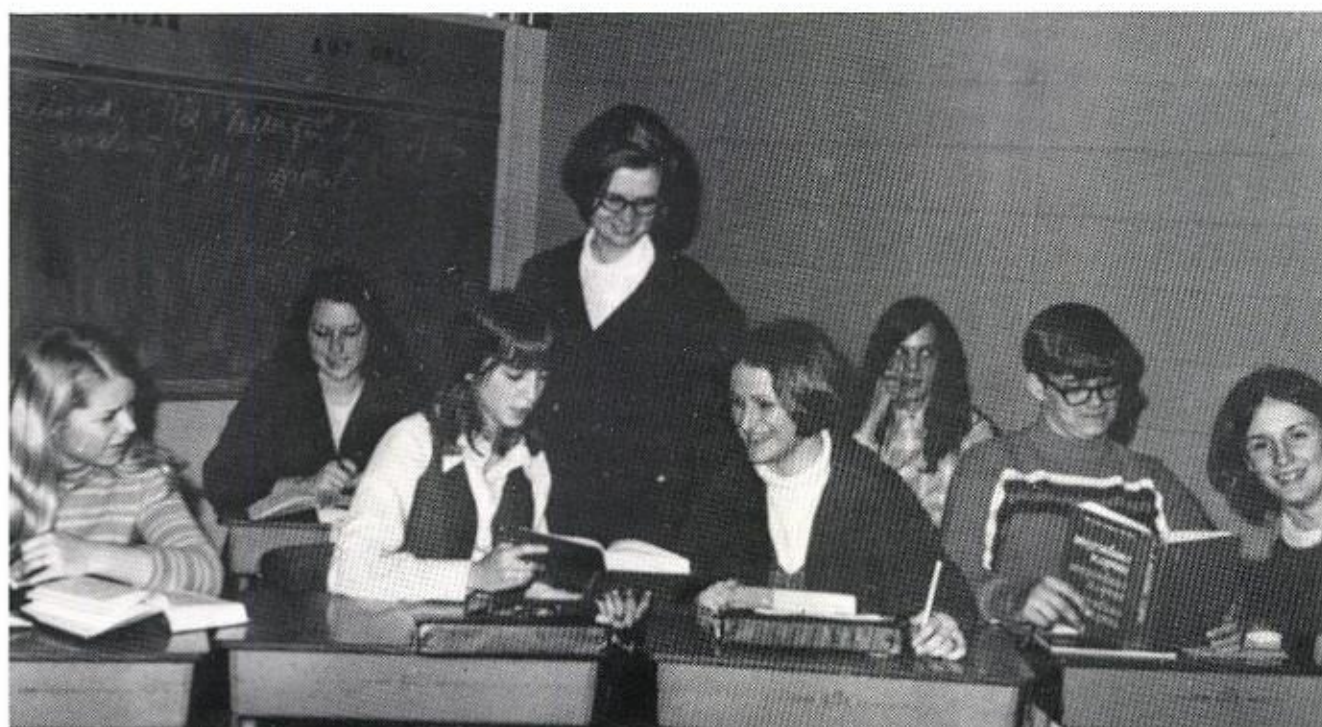

The Social Studies curriculum at Pacelli includes World History, American History, Economics, and Political Science. The courses this year were geared to helping the student better understand the world situation today by studying the past. The history student is often aided in his studies by periodicals, films, charts, and maps.

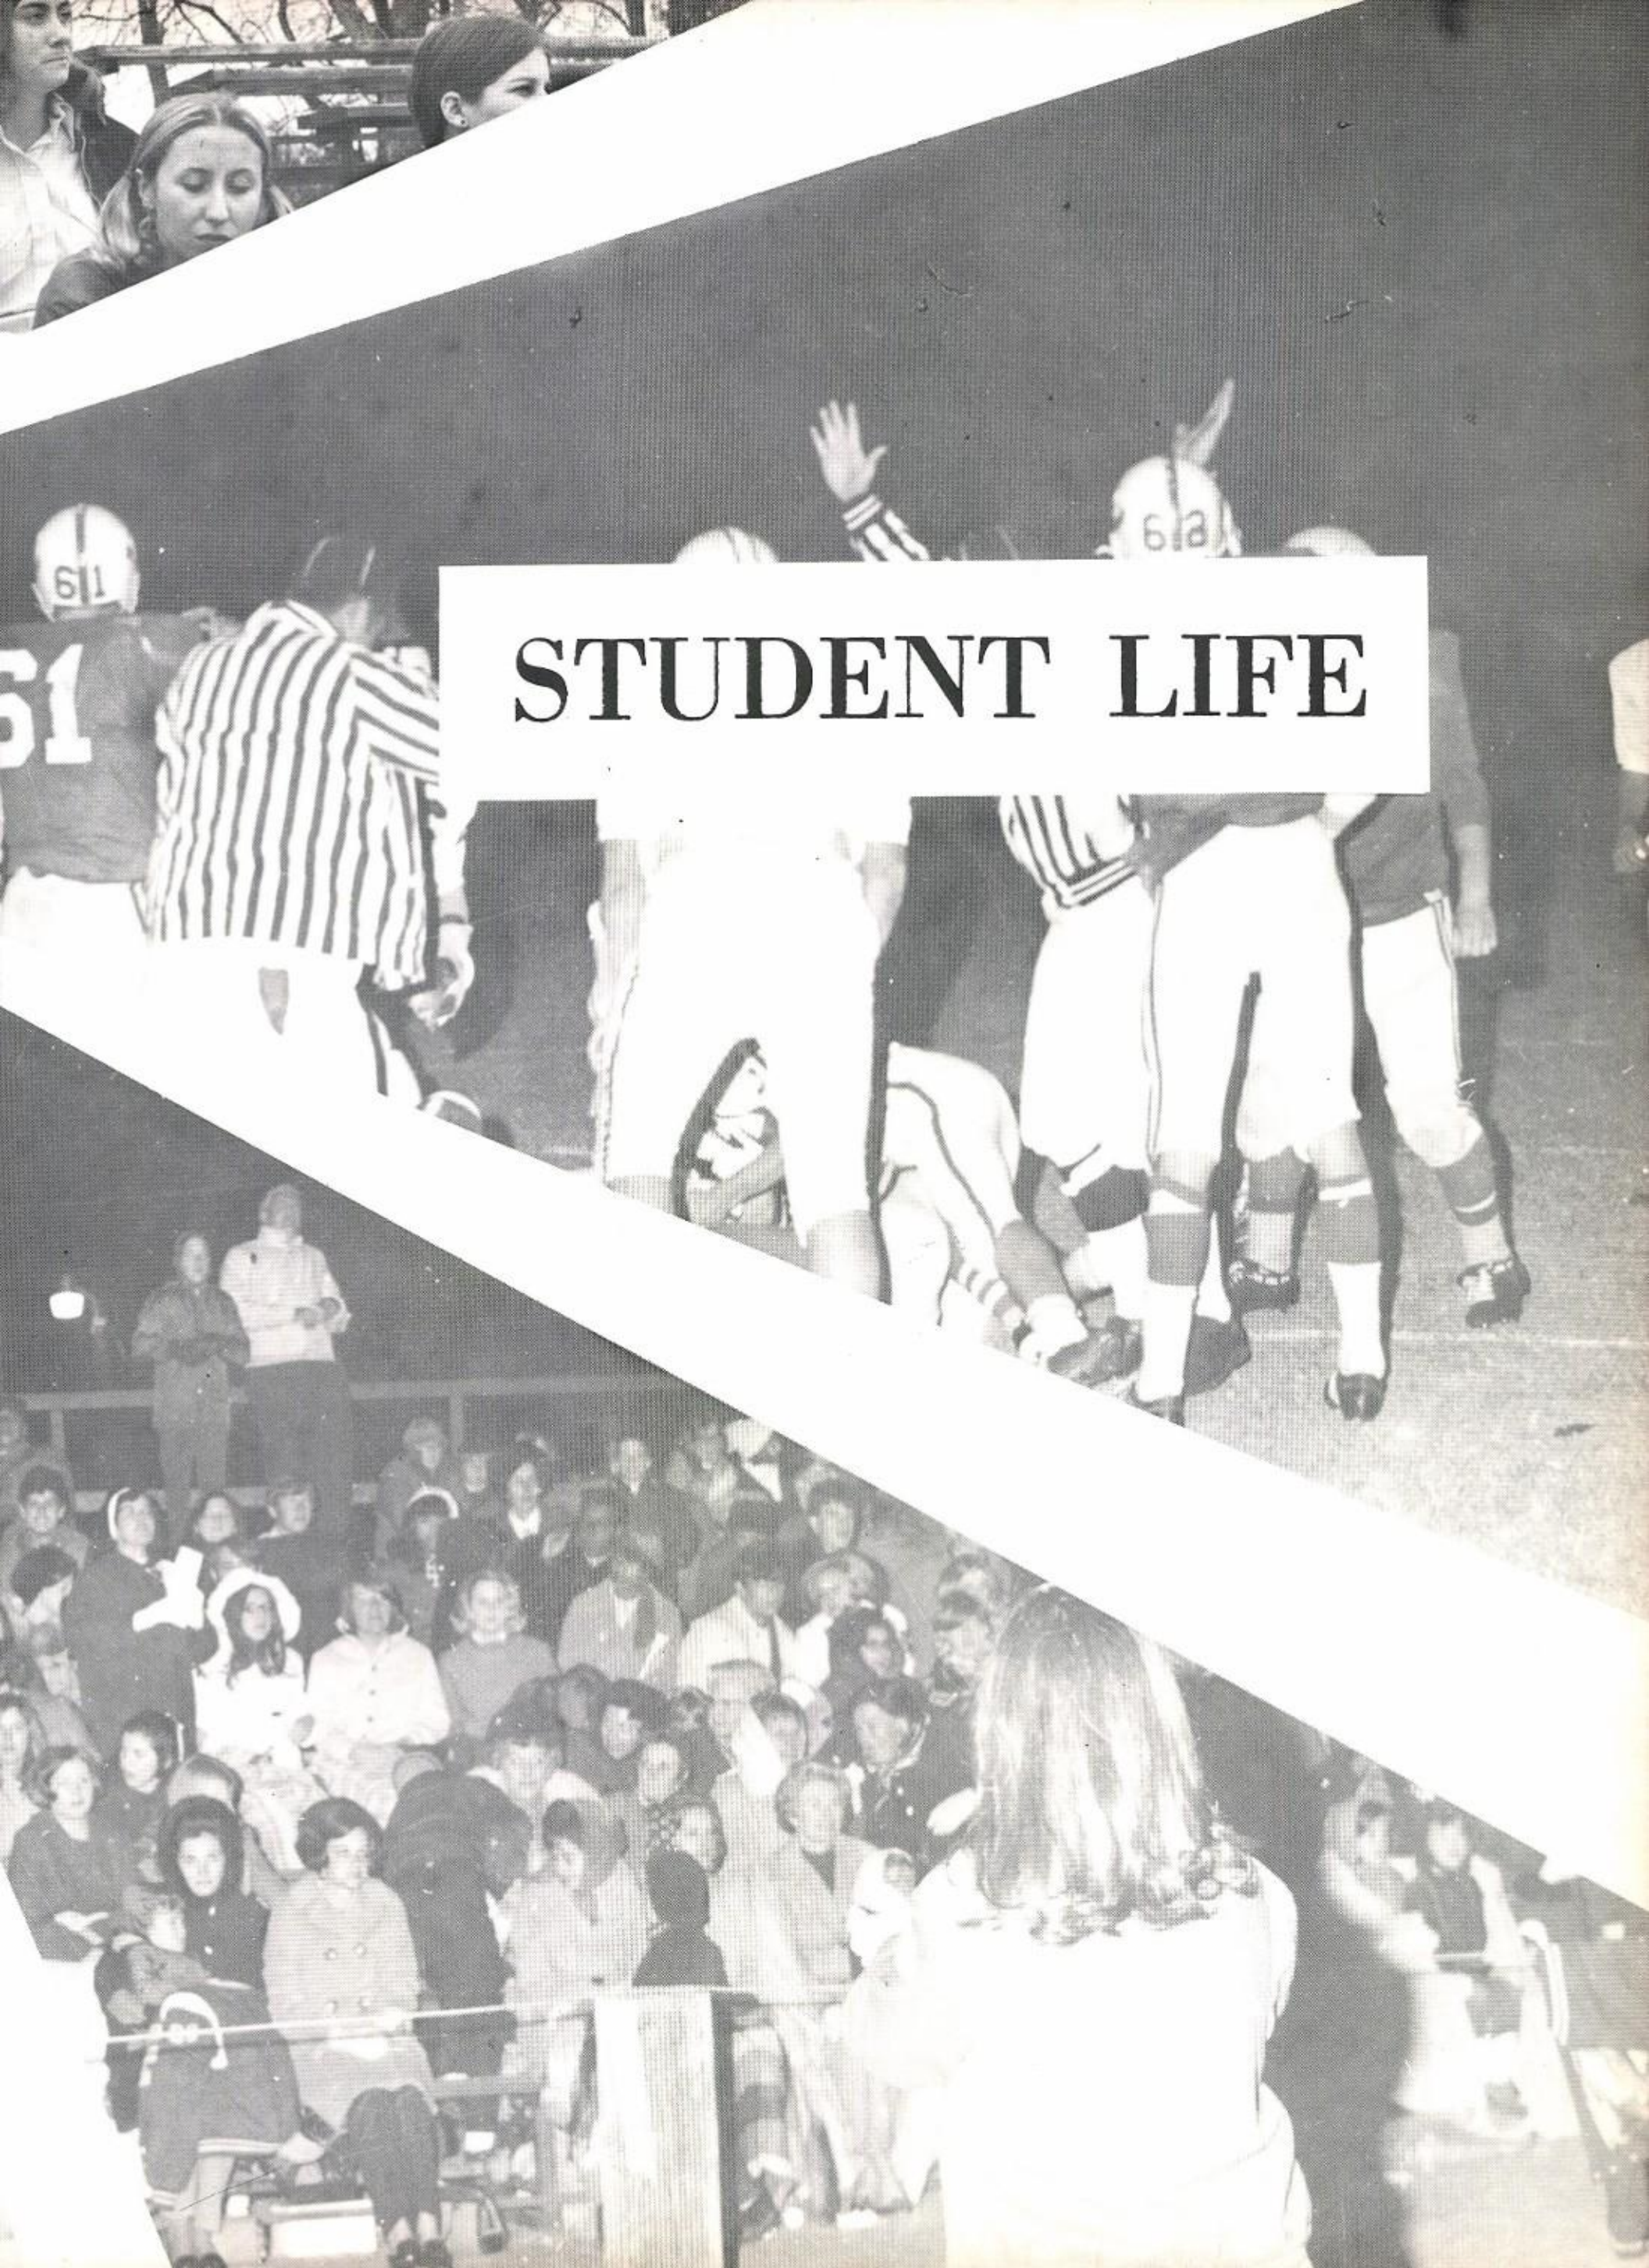

The English classes at Pacelli have always given a sound basis of study bringing in all aspects of the English language. Over a course of four year, the student is well rounded in World Literature, vocabulary, grammar, and composition. Foreign language classes bring the student to a better understanding of life outside the boundaries of the United States. Learning is increased through such techniques as tapes and records.

PLACES THIRD

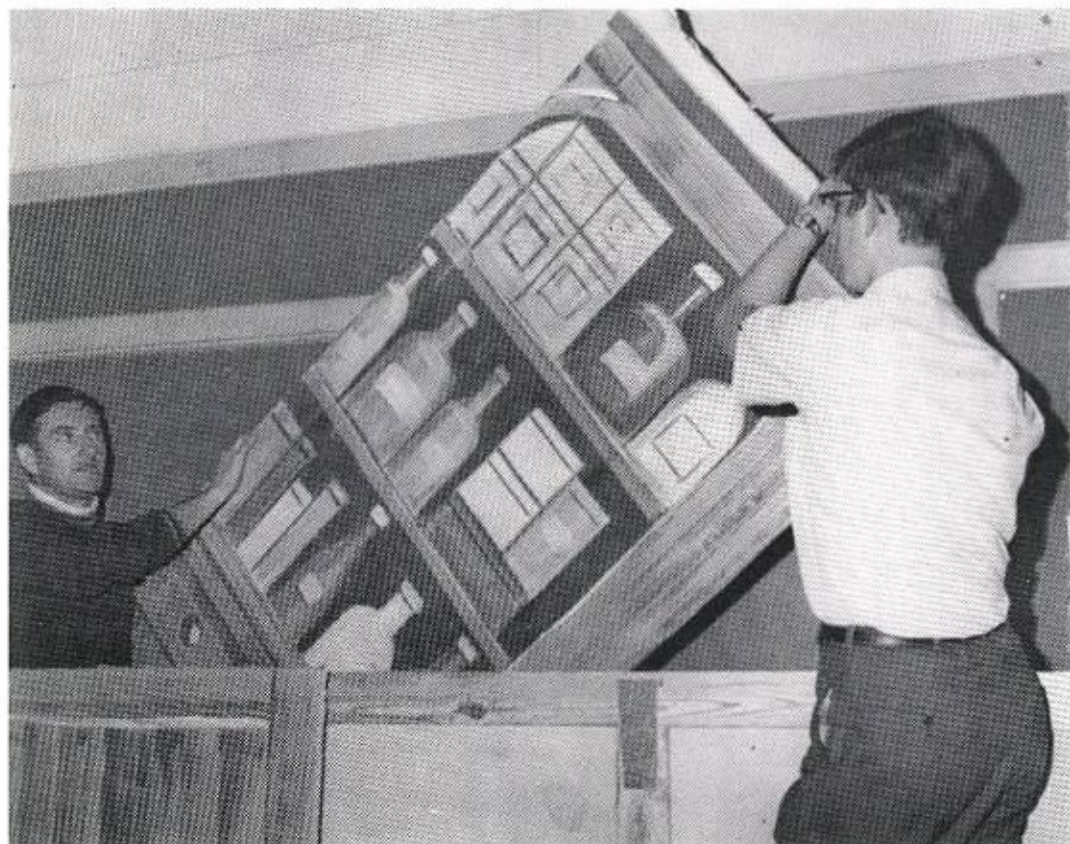

January means more than cold weather to Pacellians; it also means "March of Dimes." This year Pacelli achieved its goal of \$2,000 and placed third in the city-wide high school competition. Students worked hard for the entire month and next year with the same enthusiasm, first place could belong to Pacelli.

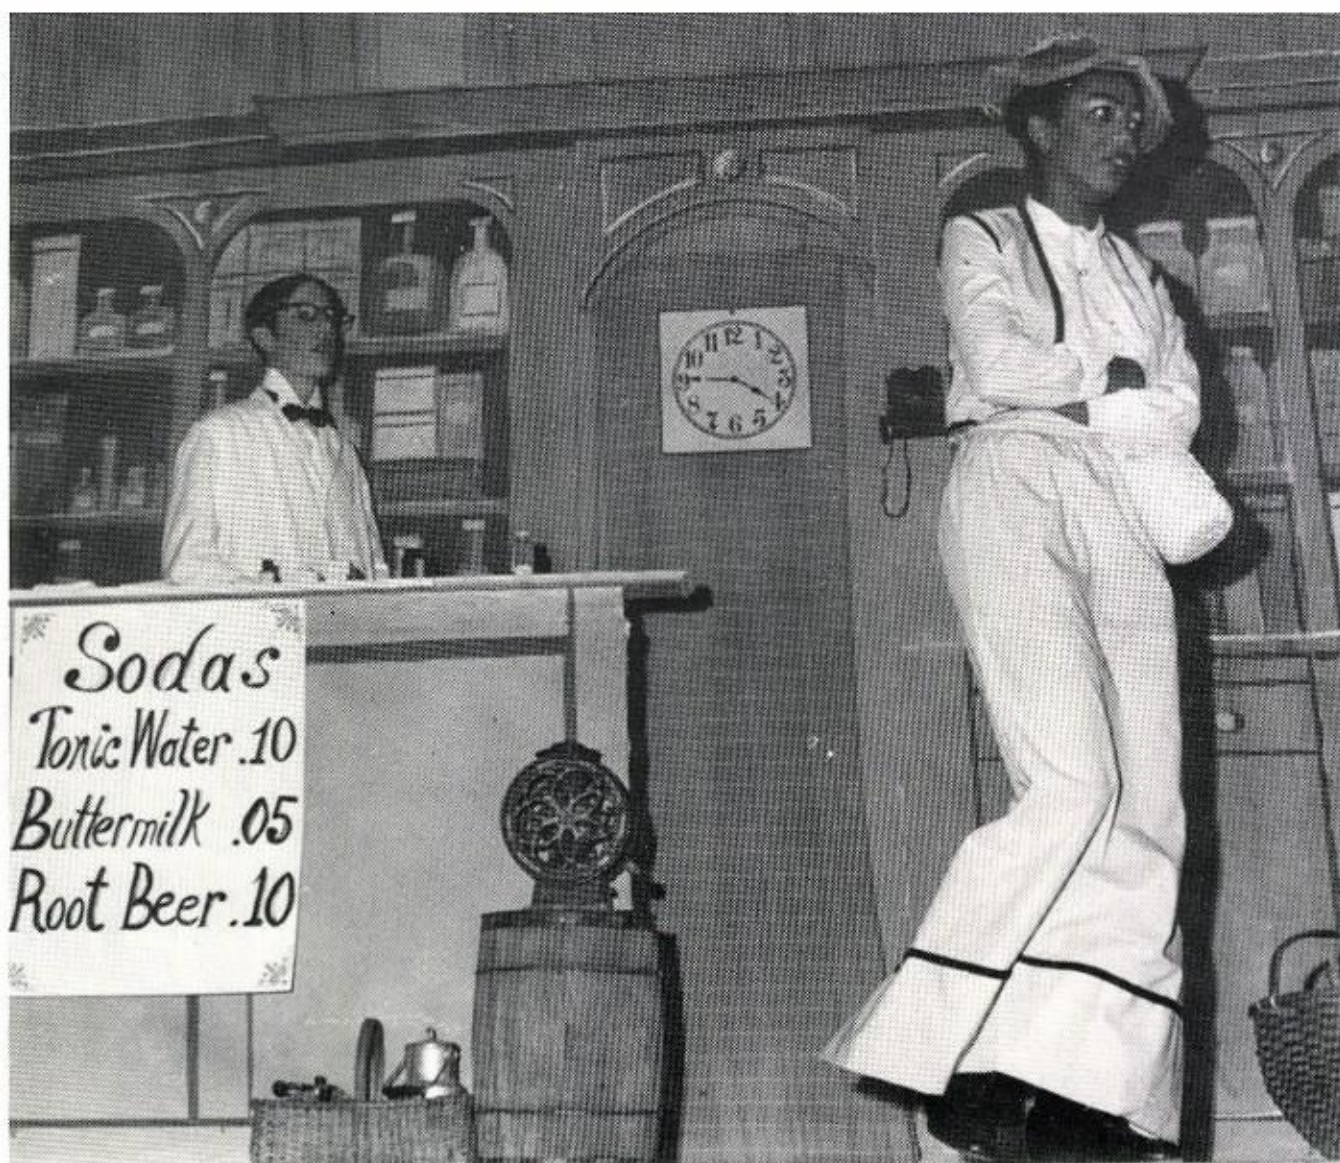

Freshmen rest after a hard day of collecting.

ORGANIZATIONS

SKALD

Junior staff members take a break from layout work to pose for staff picture.

Each year it is the responsibility of the Skald staff to compile the events and emotions of the school year. The '69-'70 staff has worked hard to present all phases of Pacelli life. A total of \$3,500, the highest amount ever made on the ad drive, was brought in during October. This enabled the staff to add many extra features making the 1970 Skald the biggest annual Pacelli has ever had.

Gregg and Martha are busy preparing ad statements at weekly meeting.

Sophomores are hard at work on their various section.

Freshmen members are thinking of some amusing cutlines for their class section.

Year

Pacelli's news publications had a new look this year with the change of the format. For the past two years, the news was published once each semester as a news magazine. The staff initiated a drive to publish the "Viking Log" three times this year using a real newspaper format.

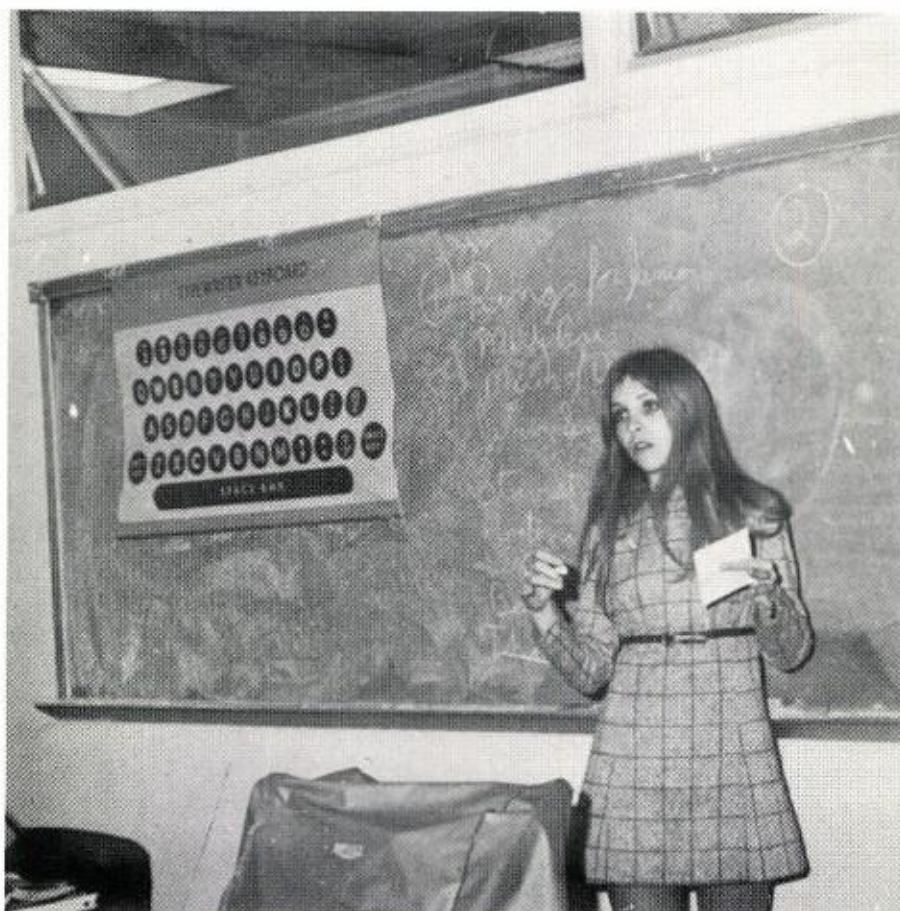

Increased emphasis on student opinion was the goal of the staff. The Editorial staff set aside space to encourage students to write letters and editorials to the editor and to participate in student polls.

'Log' page editors are 'Easy Writers.'

Who's teaching whom?

With spirit of love and understanding the members of the Social Service Club reached out to the people who need them. Their weekly activities consisted of visiting the aged at the County Home and tutoring the children at the Fifth Avenue Community Center. The students distributed food to needy families at Christmas and Thanksgiving. However, without the help of their faithful drivers, Sr. Marie and Ray Sultenfuss, none of their work would have been possible.

Listening to people at the County Home is the main occupation of the visitors.

Student Gov't Disbanded

Top: Student Council members exchange ideas for possible reinstatement.

Right: Major Robert Lagen, Student Council Advisor.

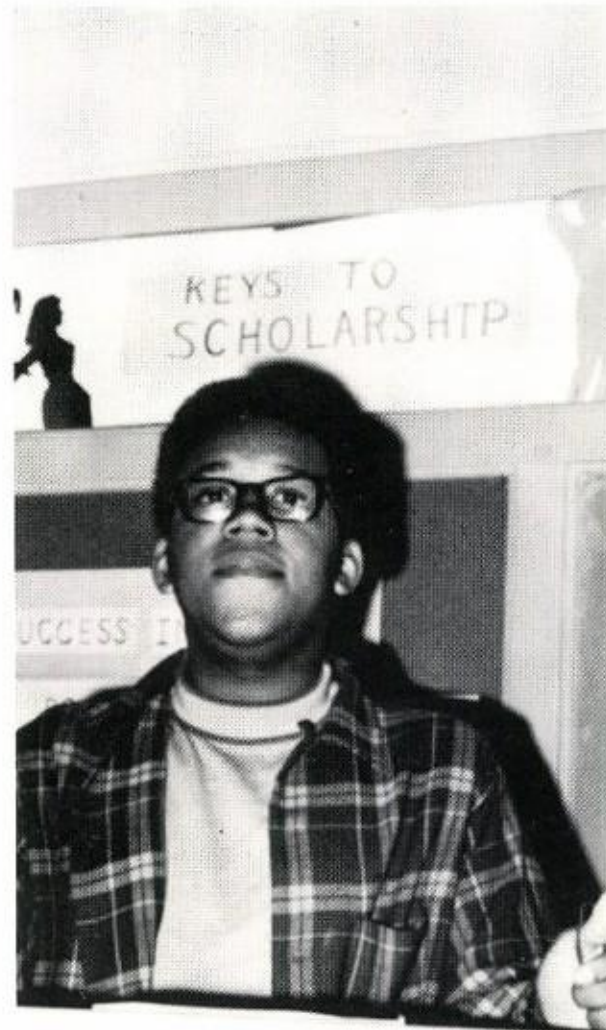

Student Council for 1969-70 made Pacelli history this year when it was disbanded due to lack of student interest and poor representation by the council. In order for the government to be reinstated, students were to suggest constructive ideas for a more active representation by the council. Fortunately the student body and the council achieved the goal and the government has been reinstated.

Students Merit Awards

Having acquired the highest score on the SAT exam, Joe Ward was honored as Star Student of Pacelli. He chose Mr. Melvin Glass as his Star Teacher.

TORY

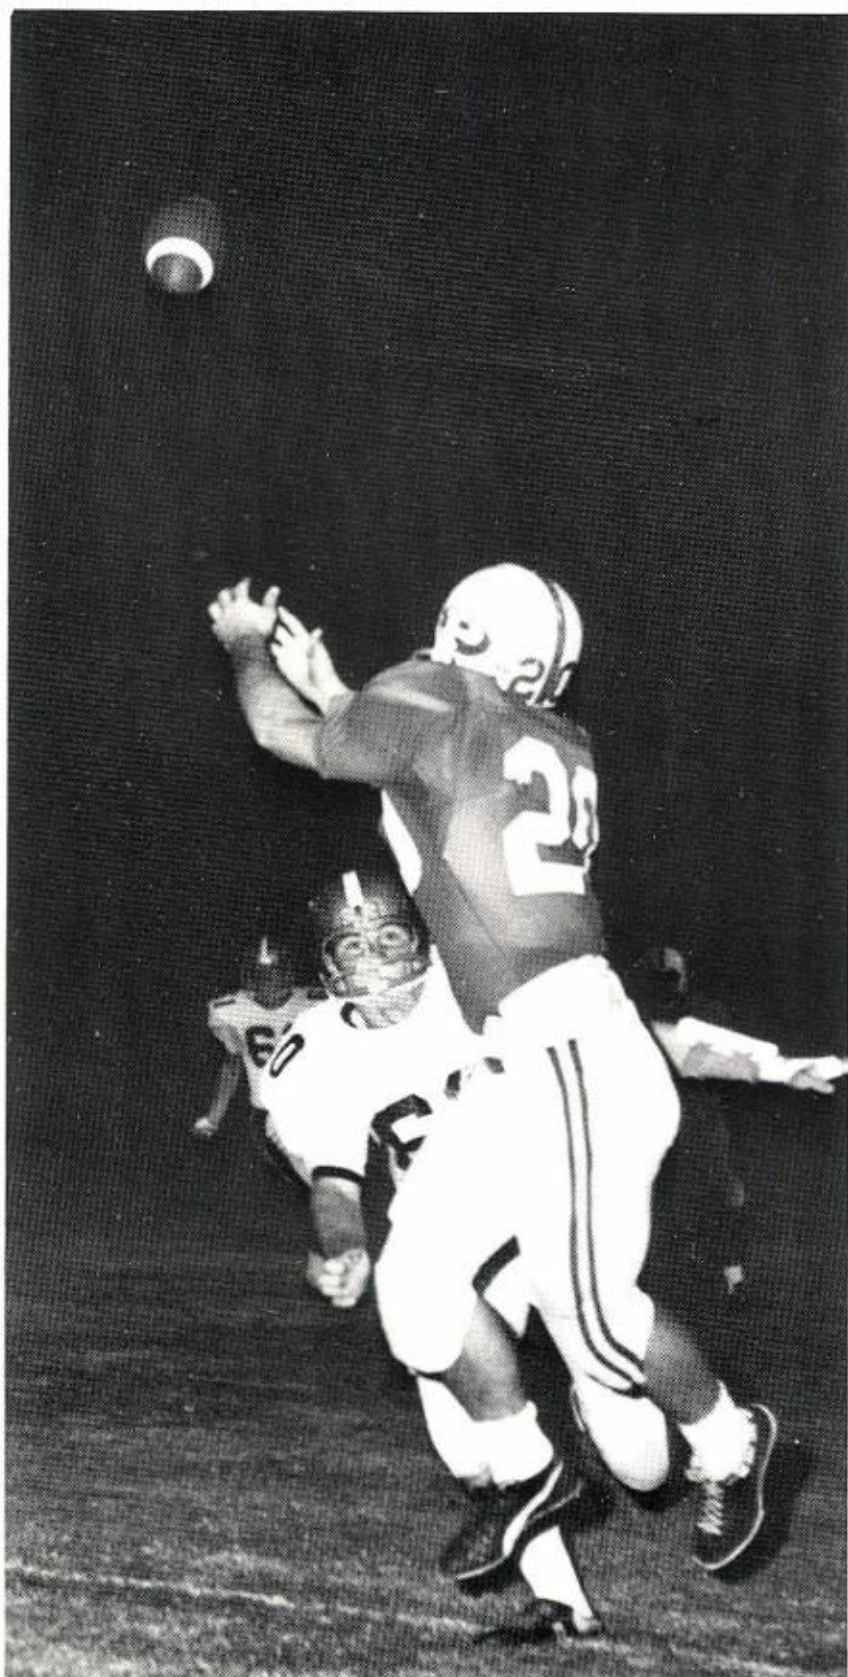

The Kendrick game—The scoreboard tells it all!

Milton catches David's two-point conversion pass in the Mt. DeSales game.

Football season has always been an important time at Pacelli. PHS spirit never lagged even when the losses outnumbered the victories but this year found all Pacelli fans exultant over victory after victory. The end of the '69 season saw the Viking team proudly displaying a 7-2-1 record, the best since 1963. This year's team romped to victories over such powerful teams as Kendrick, Mt. DeSales, and Mary Persons. Once again the Red and White earned the distinction of being "just a little bit better."

David avoids a Mary Persons tackler for another touchdown pass.

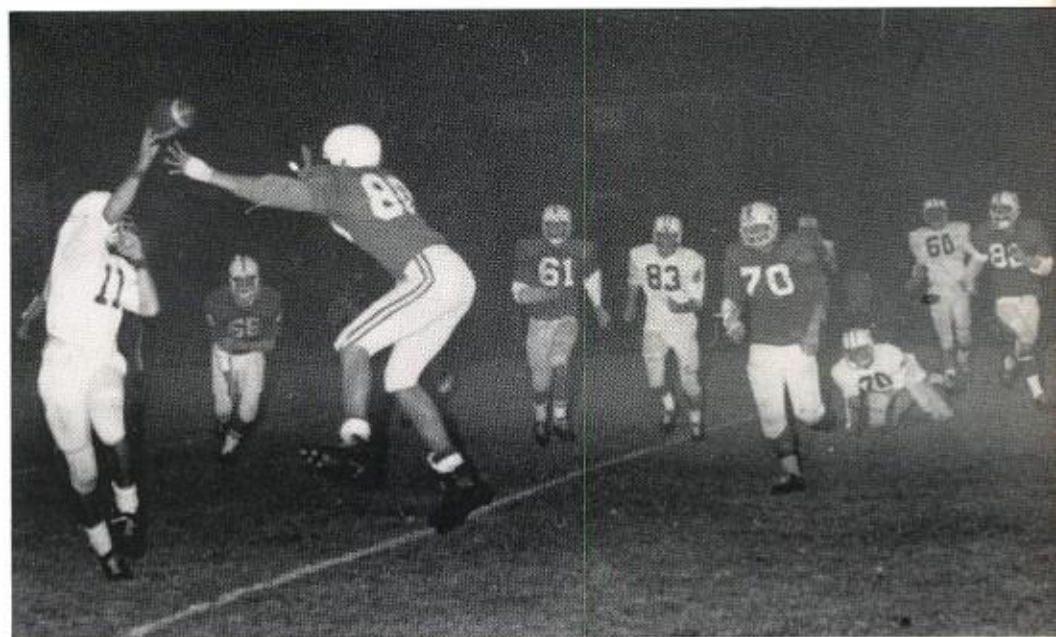

MVL Ted Szutowicz and Preston Smith throw the Mary Persons offense for a loss.

Tommy rushes for yardage against Mt. DeSales.

Ted Szutowicz surprises the Kendrick offense with an interception.

Milton outjumps the Mt. DeSales quarterback as Viking defenders rush to assist.

The year 1969-70 has been a turbulent time, not just for Pacelli but the entire world. Peace and love became the vogue words of the year. Pacelli's first Senior Lounge reflected this with peace symbols and love posters everywhere. As for the students spreading peace, there were a few problems. Inter-class, inter-school, and faculty-student relations suffered under the strain of the times but Pacellians recovered as usual and left cherished memories for all . . .
